

Time Tracking Apps

Time-tracking App is a category of computer software that allows its employees to record time spent on tasks or projects. The software is used in many industries, including those who employ hourly workers. Users enjoy the availability of a variety of different time tracking apps.

Toggl Track

- Has a simple and user-friendly interface.
- Allows users to track time spent on tasks, assign tags to tasks, and add notes to tasks.
- Offers a Pomodoro timer feature to help users focus on their tasks for a specific period of time.
- Has a basic reporting feature to view time spent on tasks and projects.
- Integrates with various project management tools like Asana, Trello, and Jira.

TimeCamp

- Has a more comprehensive time tracking system with advanced features like billable hours, invoicing, and automatic time tracking.
- Allows users to track time spent on tasks, assign project budgets, and generate detailed reports.
- Offers integrations with various project management and accounting tools like Zapier, Quickbooks, and Xero.
- Has a mobile app that allows users to track their time on the go.
- Provides an AI-powered feature called "Time Tracking Suggestions" that suggests tasks based on your activity history.

Clockify

- Offers a free version with all essential time tracking features, making it a popular choice for freelancers and small teams.
- Allows users to track time spent on tasks, assign tags to tasks, and generate detailed reports.
- Offers integrations with various project management and productivity tools like Asana, Trello, and Google Calendar.
- Offers a "Timeline" feature that shows a visual representation of your workday and tasks completed.
